Human Resource Involved:

- A total of 336 health providers (including Medical Officers, Para medical Staff, Lady Health Visitors and supportive staff) of Health department is performing duties in all 103 health camps in addition to all the primary and secondary hospitals of the districts

Stocks:

- At the moment no stock of emergency medicine is available. However, medicine available from other projects are being utilized for Flood Emergency needs.
- The emergency medicine demand of Chitral lower, Malakand, Nowshera, Tank, Kohistan Lower, Swat, DI Khan, Shangla, DHQ hospital Nowshera and Pabbi Hospital nowshera has been fulfilled from the office of DGHS to cope with flood emergency.

Challenges:

- There is no emergency fund for responding to flood emergencies.
- Health department is forecasting potential disease outbreaks in upcoming days because of polluted water and displaced population.
- Transportation of Medicine to affected areas as communication is disrupted in most affected areas.
- Logistics support to health staff for surveillance and response activities in the affected areas.
- Safe Drinking water and personal hygiene.
