Specific instructions

1. Introduction	2.1	The Procuring Entity named in the Data Sheet will select a consulting firm/organization (the Consultant) from those listed in the Letter of Invitation, in accordance with the method of selection specified in the Data Sheet.
	2.2	The eligible Consultants (shortlisted if so) are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the Data Sheet. The Proposal will be the basis for contract negotiations and ultimately for a signed Contract with the selected Consultant.
	2.3	Consultants should familiarize themselves with rules / conditions and take them into account while preparing their Proposals. Consultants are encouraged to attend a pre-proposal conference if one is specified in the Data Sheet. Attending the pre-proposal conference is, however, optional. Consultants may liaise with procuring Entity's representative named in the Data Sheet for gaining better insight into the assignment.
	2.4	Consultants shall bear all costs associated with the preparation and submission of their proposals and contract negotiation. The Procuring Entity reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultants.
	2.5	Procuring Entity may provide facilities and inputs as specified in Data Sheet
3. Conflict of Interest	3.1.1	Consultants are required to provide professional, objective, and impartial advice and holding the Procuring Entity interest Paramount. They shall strictly avoid conflict with other assignments or their own corporate interest. Consultants have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of the Procuring Entity, or that may reasonably be perceived as having such effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

	3.1.2	<p>Without limitation on the generality of the foregoing, Consultants, and any of their affiliates, shall be considered to have a conflict of interest and shall not be recruited, under any of the circumstances set forth below:</p> <p>(i) A consultant that has been engaged by the procuring entity to provide goods, works or services other than Consulting services for a project, any of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, any of its affiliates, shall be disqualified from subsequently providing goods or works or services other than consulting services resulting from or directly related to the firm's consulting services for such preparation or implementation.</p> <p>(ii) A Consultant (including its Personnel and Sub Consultants) or any of its affiliates shall not be hired for any assignment that, by its nature, may conflict with another assignment of the Consultant to be executed for the same or for another Procuring Entity.</p> <p>(iii) A Consultant (including its Personnel and Sub Consultants) that has a business or family relationship with a member of the Procuring Entity's staff who is directly or indirectly involved in any Part of (i) the preparation of the Terms of Reference of the assignment, the selection process for such assignment, or (iii) supervisions of the Contract</p>
Conflicting Relationships	3.2	<p>Government officials and civil servants may be hired as consultants only if:</p> <p>(i) They are on leave of absence without Pay;</p> <p>(ii) They are not being hired by the Entity they were working for six months prior to going on leave; And</p> <p>(iii) Their employment would not give rise to any conflict of interest</p>
4. Fraud & Corruption		<p>It is Government's policy that Consultants under the contract(s), observe the highest standard of ethics during the procurement and execution of such contracts. In pursuit of this policy, the Procuring Entity follows the instructions contained in Khyber Pakhtunkhwa Public procurement Rules 2014 which defines:</p> <p>"Corrupt and fraudulent practices" includes the offering, giving, receiving, or soliciting, directly or indirectly of anything of value to influence the act of another Party for wrongful gain or any act or omission, including misrepresentation, that knowingly or recklessly</p>

		mislead or attempt mislead a Party to obtain a financial or other benefit or to avoid an obligation”
5. Integrity Pact		<p>Rule 44 of KPPR 2014, “The PE can inter-alia blacklist Bidders found to be indulging in corrupt or fraudulent practices.</p> <p>Such barring action shall be duly publicized and communicated to the KPPRA. Provided that any supplier or contractor who is to be blacklisted shall be accorded adequate opportunity of being heard”.</p> <p>Pursuant to section 16(2)(3) of KPPRA Act 2012 Consultant undertakes to sign an Integrity Pact in accordance with prescribed format attached hereto for all the procurements estimated to exceed Rs. 2.5 million.</p>
6. Eligible Consultants	6.1	If short listing process has been undertaken through REOI, as outlined under Rule 25 and 26 of KPPR 2014 for the Contract(s) for which these RFP documents are being issued, those firms - in case of Joint Ventures with the same Partner(s) and Joint Venture structure - that had been pre-qualified are eligible
	6.2	Short listed consultants emerging from request of expression of interest are eligible

7. Eligibility of Sub Consultants	7.1	A shortlisted Consultant would not be allowed to associate with Consultants who have failed to qualify the short listing process. Shortlisted Consultants may only submit one proposal. If a Consultant submits or Participates in more than one proposal, such proposals shall be disqualified. Participation of the same Sub Consultant, including individual experts, to more than one proposal is not allowed.
8. Proposal Validity	8.1	The Data Sheet indicates Proposals validity that shall not be more than 90 days in case of National Competitive Bidding (NCB) and 120 days in case of International competitive Bidding (ICB). During this Period, Consultants shall maintain the availability of Professional staff nominated in the Proposal. The Procuring Entity will make its best effort to complete negotiations within this period. Should the need arise; however, the Procuring Entity may request Consultants to extend the validity period of their proposals. Consultants who agree to such extension shall confirm that they maintain the availability of the Professional staff nominated in the Proposal, or in their confirmation of extension of validity of the Proposal, Consultants may submit new staff in replacement, who would be considered in the final evaluation for contract award. Consultants who do not agree have the right to refuse to extend the validity of their Proposals.
9. Clarifications and Amendments in RFP	9.1	Consultants may request for a clarification of contents of the bidding document in writing and procuring Entity shall respond to such queries in writing within three calendar days, provided they are received at least eight calendar days prior to the date of opening of proposal. The procuring Entity shall communicate such response to all parties who have obtained RFP document without identifying the source of inquiry. Should the PE deem it necessary to amend the RFP as a result of a clarification, it shall do so
	9.2	The Procuring Entity may amend the RFP five days before the closing date by issuing an addendum/ corrigendum in writing. The addendum shall be sent to all Consultants and will be binding on them. Consultants shall acknowledge receipt of all amendments. To give Consultants reasonable time in which to take an amendment into account in their Proposals the Procuring Entity may, if the amendment is substantial, extend the deadline for the submission of Proposals.

11. Preparation of Proposals	11.1	In preparing their Proposal, Consultants are exacted to examine in detail the documents comprising the RFP. Material deficiencies (deviation from scope, experience and qualification of Personnel) in providing the information requested may result in rejection of a Proposal.
	11.2	The estimate number of professional staff months or the budget required for executing the assignment should be shown in the data sheet, but not both. However, proposal shall be based on the professional staff month or budget estimated by the consultant.

The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet: $S = St \times T\% + Sf \times P\%$. The firm achieving the highest combined technical and financial score will be invited for negotiations.</p>
19.5	<p>In the case of Fixed-Budget and Quality Based Selection, the Procuring Entity will select the firm that submitted the highest ranked Technical Proposal.</p>	

20. Negotiations	20.1	Negotiations will be held at the date and address indicated in the Data Sheet. The invited Consultant will, as a pre-requisite for attendance at the negotiations, confirm availability of all Professional staff. Failure in satisfying such requirements may result in the PE proceeding to
		negotiate with the next-ranked Consultant. Representatives conducting negotiations on behalf of the Consultant must have written authority to negotiate and conclude a Contract
21. Technical Negotiations	21.1	Technical Negotiations will include a discussion of the Technical Proposal, the proposed technical approach and methodology, work plan, organization and staffing, and any suggestions made by the Consultant to improve the Terms of Reference. The PE and the Consultants will finalize the Terms of Reference, staffing schedule, work schedule, logistics, and reporting. These documents will then be incorporated in the Contract as "Description of Services". Minutes of negotiations, which will be signed by the PE and the Consultant, will become Part of Contract Agreement
22. Financial Negotiations	22.1	If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the tax amount to be Paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the firm's tax liability, and the manner in which it will be reflected in the Contract; and will reflect the agreed technical modifications in the cost of the services. Consultants will provide the PE with the information on remuneration rates described in the Appendix attached to Section 4 (i.e., Financial Proposal - Standard Forms of this RFP
23. Availability of Professional Staff /Experts	23.1	Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the PE expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the PE will require assurances that the Professional staff will be actually available. The PE will not consider substitutions during contract negotiations unless both Parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate

24. Award of Contract	24.1	After completing negotiations, the Procuring Entity shall award the Contract to the selected Consultant within seven days after letter of acceptance or award has been issued. Procuring Entity shall publish on the website of the Authority and on its own website, if such a website exists, the result of the bidding process, identifying the bid through procuring identifying number, if any and the following information, evaluation report, form of contract and letter of award, bill of quantity or schedule of requirement, as the case may be. However, the procuring entity shall announce the final results of a bid evaluation giving justifications for acceptance or rejection of bids at least ten days prior to the award of a contract and place the same on its and authority website
	24.2	After publishing of award of contract consultant required to submit a Performance security at the rate indicated in data sheet.
	24.3	The Consultant is expected to commence the assignment on the date and at the location specified in the Data Sheet
25. Confidentiality	25.1	Information relating to evaluation of Proposals and recommendations concerning awards shall not be disclosed to the Consultants who submitted the Proposals or to other Persons not officially concerned with the process, until the publication of the award of Contract. The undue use by any Consultant of confidential information related to the process may result in the rejection of its Proposal

Section 3: Terms of Reference for Service Providers

Component 1: Protocol-Compliant warehousing of the Medicine & Equipment

Objective:

To establish a fully integrated, efficient, robust and protocol-compliant system for storage and warehousing of medicine and equipment throughout the province with complete data visibility at each level of the supply-chain.

Rationale:

Current storage facilities at provincial and district levels are non-existent/inadequate in terms of space and infrastructure to cater to storage needs vis-à-vis volumes of commodities being procured. Inventory management at all levels of the supply-chain are also severely lacking and have to be improved.

Strategy:

The Department of Health plans to outsource the end-to-end supply chain services including provision of warehousing space, transportation, insurance, security, loading/unloading, management etc. to one or more 3rd parties hired through competitive process in line with KPPRA. To execute the above-mentioned services, the Department proposes establishment of one or more warehouses to ensure coverage across the province; however, **the number and size of warehouses may vary keeping in view optimization of logistics, financial efficiency and other considerations as deemed appropriate by the vendors. Furthermore, the companies may provide bids simultaneously both on the basis of area (square footage) or space requirements (pellets) and decide to move on with the most cost-effective solution.** These provisions will allow the providers to bid according to units they deem to be most appropriate. In case service provider opts to provide warehouses across different geographies, an indicative list of district clusters in order of proximity is given below:

List of Warehouses & Attached Districts

- Monitoring committee shall carry out technical administration of the contract, communication, coordination and for gauging and determining the adequacy of the service provider's performance. He shall provide unhindered real time access to the DOH and its representatives to premises', inventory and other related record.

Component 2: Protocol-Compliant Distribution System of the Medicine & Equipment

Objective:

To establish a fully integrated, optimized, and robust system for the distribution of medicine and equipment to all the health facilities throughout the province with complete data visibility at each level of the supply-chain

Rationale:

There is currently no system for distribution of medicine and equipment to health facilities in the province. The health facilities and end-users are left on their own for collection of medicine from central stores or the medicine supplier delivers the medicine to the health facilities without an appropriate roster. A lot of efficiency can be brought in the system by introducing an outsourced Distribution System. The system will also improve the inventory controls at all levels of the supply-chain through technology.

Strategy:

Under the project, the Department of Health plans to outsource the transportation and distribution services as well. To create an efficient and cost-effective distribution system, the location of warehouse or warehouses shall have to be optimized. The decision for selection of location or number of warehouses however will rest on the service provider (as mentioned in the previous section). The Department shall solicit bids from providers based on per kilometer cost of different kinds of vehicles and modes of transport.

Scope of Services

In total, the Department has estimated that the service provider will be required to provide transport across ~1000 primary health facilities and ~200 secondary health facilities across the province. These deliveries will have to be made at monthly/bimonthly frequencies at the discretion of the KP Health Department with the aim of ensuring a consistent inventory level at these health facilities.

The provider shall be responsible to ensure the following services while providing the transport:

- The service provider shall be responsible to transport the medicine and equipment from the warehouse to the final destinations.
- All transportation vehicles/containers shall be closed and covered for safe & secure delivery.
- As there are two type of medicine as far as their temperature sensitivity is concerned. Most of those require only ambient temperature. The service provider shall be responsible to transport such medicine and equipment in covered ambient temperature vehicles.
- However, there are few medicines which require refrigerated transportation vehicles. In case of refrigerated transportation, the service provider shall ensure their transportation in temperature controlled refrigerated vehicles having temperature logging system available.
- The temperature logging system should be such as which cannot be tampered with.
- The service provider shall be responsible for safety, security, management, loading and unloading of inventory at all locations within the given time-frame.

- The service provider shall be responsible for providing insurance of Health Department's medicines and supplies during transit.
- The payment to the service provider shall be calculated on the basis of distance calculated through digital logging tools such as google maps.

Component 3: Supply-chain Management Information System

Objective:

Enable decision makers at all levels make evidence based, informed decisions for all supply-chain functions.

Rationale:

Different health programs maintain standalone MIS systems, most of which do not cover logistics functions, including: forecasting and supply planning, warehousing, and stock requisitioning. The LHW, MNCH, EPI, DHO, THQ hospital, Hepatitis and Nutrition program MIS have very limited logistics information which is not sufficient to measure overall supply-chain performance.

Strategy:

As part of the supply chain solution, the service provider will be required to provide a Management Information System (MIS) that provides enough functionality to achieve the above-mentioned objective. It is the Department's understanding that market leading companies in this field have already developed advanced management information solutions as part of their offerings to clients. Considering this, the Department shall expect MIS to ensure the following scope of services are provided. The SMU has also created a post of MIS officer to liaise with the selected company in this regard.

Scope of Services:

- The MIS shall be a web-based system having capacity to work offline in case of internet disconnections or Power-Failures.
- The functional specifications shall be comprehensive and these shall included but not be limited to the functional ability of the MIS of inbound & outbound inventory management, fleet management, Placement of Orders, Sample Testing, Submission of Invoices etc.
- The functional specifications of the MIS report templates and reporting forms shall be customizable and approved by the SMCC.
- The forms including the medicine order forms, medicine inbound and outbound challans, stock inventory reports, total ordered medicine and total received medicine, point wise medicine delivery-status, medicine wise orders and deliveries, financial value of ordered medicine, Authorized Medicine Ordering Entity wise reports etc shall be viewable by the SMU on demand.
- MIS shall have 360 degree reporting feature of each activity undertaken through it. It shall generate automatic intimations of orders by Authorized Medicine Ordering Entity (AMOE), inbound supplies of medicine and equipment, samples of medicine drawn for testing by DTLs, Clearance reports by DTLs and batches of medicines ready to be delivered and delivered etc.
- The MIS shall also include functionality to take the updated Medicine and Equipment Framework Contract issued by the Office of Director General, Health Services, KP in such a manner that authorized medicine ordering entities can punch in orders using drop down menu etc.

- The MIS system developed and deployed by the service provider must be capable of integration with the various existing MIS deployed by the DOH and/or its program
- The MIS must be capable to capture exact locations of each Pallet & Carton in the Warehouse utilizing barcode technology/equivalent technology.
- The MIS shall be able to capture complete Carton-Wise & Batch-Wise details of Stocked Inventory, Issued Inventory, Inbound Inventory & Out bound Inventory in real time.
- The Service Provider shall be responsible to train SMU staff and the field staff on the functioning of the MIS.
- After development and deployment of the Supply-Chain MIS, authorized medicine ordering entities shall be able to place order digitally through the MIS as well as in the traditional manner to the manufacturer/supplier.
- All the Authorized Medicine Ordering Entities (AMOE) and listed manufactures/suppliers shall be issued logins and passwords as decided by SMCC. The SMCC shall decide total number of delivery points of medicines in respect of each Authorized Medicine Ordering Entity.
- The Authorized Medicine Ordering Entity (AMOE) shall be authorized to place orders only within their approved budget.
- Authorized Medicine Ordering Entities (AMOE) shall punch in the medicine itemized order through MIS deployed by service provider which will be available online 24/7, 365 days a year. After punching in the order, healthcare establishment will get a printout of the same order sheet, affixes signatures and stamp thereon and transmits the same electronically via MIS as well as through regular traditional manner to the manufacturer/supplier.
- The Service provider shall not be authorized to utilize any data, information, projections, or report etc that he has been collected, compiled, gathered in performance of the contract to his benefit other than in performance of the instant contract or to improve service delivery under the instant contract.

Section 4: Evaluation criteria for proposals

Submitted proposals shall be evaluated using financial plus technical evaluations criteria following the prescribed methods under KPPRA.

Separate technical and financial proposals shall be submitted in line with the procedure described in Section 2. After submission, technical proposals shall be opened while the financial proposals shall remain in sealed envelopes. The technical proposals shall be evaluated using the evaluation matrix given below and scored out of a maximum of 100 marks (last column (weighted score) in the evaluation matrix). **In order to qualify, a company would have to score at least 70 marks.** Any companies that score below this threshold on the technical matrix shall be automatically disqualified and their financial proposals will be returned unopened.

Companies scoring above 70 shall go on to financial evaluation stage where the lowest overall bidder shall be assigned 100 marks and all others shall be marked. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet: $S = St \times T\% + Sf \times P\%$. The firm achieving the highest combined technical and financial score will be invited for negotiations.

Technical Evaluation

Technical scores will be assigned using following table:
