Three products @ Rs. 100; Rs. 120 & Rs. 150 are quoted. The financial Score can be Calculated as:  1) $\frac{100}{100} \times 30 = 30$ 2) $\frac{100}{120} \times 30 = 25$ 3) $\frac{100}{150} \times 30 = 20$	.

Financial bids of only technically qualified bidders shall be opened publicly at the time to be announced by the Procuring Agency. The Financial Bids of technically dis-qualified bidders shall be returned un-opened to the respective Bidders (see **EXCEPTION Section** below for exemption from achieving minimum qualifying marks and still be considered for bidding). After achieving the financial score from the remaining 30 marks, the two scores (technical + financial) shall be combined to identify the Best evaluated bid (achieving the highest marks in combined evaluation). All the prices quoted shall be equal to or less than the trade prices (Trade price= DRAP approved MRP minus 15%). Prices offered per unit shall be up to two decimal points.

**Evaluation Methodology:** Contract will be awarded to the firm which gets the maximum marks for the product/medicine and becomes the Best evaluated bid in the Combined Evaluation calculated through the Merit Point Evaluation Methodology which puts greater emphasis on non-price factors such as high quality of the product, stringent certifications, and the most efficient industrial processes etc. The following weightages will be given to the technical and financial scores:

**Technical Score: 70 marks**

**Financial Score: 30 marks**

**Passing Marks in technical evaluation shall be 45 out of 70.**

Cancer-related drugs are lifesaving medicines and require very high quality. In order to achieve the said quality, Merit Point Evaluation Methodology will be used in evaluating the Technical and Financial bids to give more weightage to the technical score thereby emphasizing on factors relating to quality. The said Technical Score focuses on the process of manufacturing medicines with raw material source of excellent grade, good past performance with early supplies, provision of authentic bio-equivalence and cGMP certificates from globally renowned healthcare certification bodies validating such certificates on highly stringent standards, adoption of reference standard cold chain procedures for preservation of

temperature-sensitive medicines and publication of trial studies in indexed journals of international repute etc. This method therefore encourages and incentivizes the firms to significantly improve their industrial processes and enhance their drug efficacy in order to get maximum marks in the Technical Evaluation to become the best evaluated bid.

**NB:** Ensuring the technical standards of the medicines being procured is of utmost importance. Outcome of treatment and lives of cancer patients depend on these technical standards. Therefore any attempt to misrepresent or falsify facts or any information, such as any alteration, addition or deletion of wordings in any part of the BSD, quoting trials for generic medicine that were conducted for the original molecule, attaching application for registration rather than actual registration certificate or cGMP certificate or GMP/accreditation certificates for other drugs or manufacturing sites where the medicine was not manufactured and such like acts, falsification of information in any form shall lead to disqualification and black-listing of the concerned firm/vendor as a whole. Procurement/Purchase Committee reserves the right to inspect the Manufacturing Unit or cold chain/storage facilities.

Any litigation or frivolous complaints shall also lead to blacklisting of the firm/vendor for the current and future biddings.

**\*EXCEPTION:** In case of a class of medicine in which none of the medicines quoted fulfill the above technical criteria but is required for restoration of health of cancer patients, only in that case, the qualifying technical score will be lowered and medicine that has the highest ranking in the combined evaluation shall be selected. This clause is only for cases in which none of the required class of drug/medicine fulfills the technical qualification criteria.

**PROPRIETARY ITEMS:** Proprietary items/products shall be dealt with as per KPPRA Rules 2014. Negotiation can be done for these products. Manufacturer/importer has to supply an affidavit affirming that the said products are their sole proprietary items in Pakistan. Following is required for proprietary products:
