

S.No.	Question/comment	Answer/Remarks
1	After winning the Bid, how much time shall be there for us to make our Facility ready for operation.	After award of contract a maximum time for facility management & operationalization would be 90 days.
2	What will be the Payment Schedule to the vendors after the billing, Max. & Min. Time?	Bills will be paid as soon as possible after fulfilling the legal Govt. procedures in-line to the requirement of Accountant General of Pakistan.
3	Is there any fluctuation in Estimated Space allocation i.e., 211,315 sqft.?	Initially, Service Provider are expected to provide warehousing space of around 100,000 sq. ft. distributed proportionately in all areas. For additional space requirement, Service Provider will be given a 2 week notice and the requirements would be extended in multiples of 20,000 sq. ft. in each request until maximum limit of 211,315 sq. ft. is reached.
4	What will the criteria for DTL after informing the Regional Drug Inspector and in that time if we receive the delivery instruction, please specify the protocol in this case.	It will be the responsibility of SMU and Department of Health to manage and will be designed as per need when & where required.
5	What will be the schedule of Audits/Inspections by your teams?	SMU, as per need & requirement may depute a dedicate logistic personnel of the project to be full time on board in warehouse to supervise the activities. However, physical audit by health department would tentatively be once a month or once in two months (would be mutually agreed at the time of contract award) based on need, rationalization, and swift management of the Project.
6	Please specify the Delivery Schedule Time/Period of Supply of the following: a) Bulk stock from the Manufacturer to us. B) Supply of stock to Health facility from us.	From manufacturer & importer: Maximum lead time is 30 days as per MCC contract & 90 days as per CRC contract. However, keeping in view the need of other project this may vary and will be communicated accordingly. For supply to facility: 10-15 days after receiving stock disbursement plan from SMU &/or DoH.

7	<p>As it was discussed during the meeting that 5 years contract will be more beneficial for DGHS, looking forward for your consideration to lock the contract period for 5 years</p>	<p>The provision for current contract is 3 years as per PC-1.</p> <p>However, keeping in view the need of the project, availability of fund & performance of the service provider the project has potential for extension to at least 5 years given there is no big capital expenditure from both parties</p>
8	<p>According to mentioned standards in DGHS tender document, space calculation of pallet is: 1 pallet = 13.33 sqft</p> <p>This is only storage capacity of a pallet in sqft. 50% of the storage capacity of the pallet is to be taken for aisles/marshaling area/kitting areas which needs to be added. So, by this standard, 01 pallet will be considered as 20 sq.ft. ($13.33 \times 150\% = 20$).</p>	<p>Service providers are required to bid according to the given pallet internationally standards i.e., 1 pallet = 13.33 sq. ft. However, keeping in view the due fact of aisles/marshaling area/kitting areas, the services provider/Bidders are required to manage their financial bid accordingly and comparative statement will be made in accordance with the same. The cost of supplementary requirements for pallet adjustments in the warehouse could be quoted separately, however, the main calculation should remain as per the 1 pallet standard mentioned in bidding document.</p>
9	<p>Total space requirement for warehouses is 211,315 sqft. We suggest that 100% space will be charged as these facilities will be dedicated only for DGHS project.</p>	<p>Initially, Service Provider are expected to provide warehousing space of around 100,000 sq. ft. distributed proportionately in all areas. The payment will be made as per actual.</p> <p>For additional space requirement, Service Provider will be given a 2 week notice and the requirements would be extended in multiples of 20,000 sq. ft. in each request until maximum limit of 211,315 sq. ft. is reached.</p>
10	<p>Storage requirement for 2-8 degree is 5,000 sqft which seems at higher side. Can you please confirm the requirement in cubic feet?</p>	<p>For cubic feet calculation, Service providers will be required to quote for 100, 500, 1000, 1500, 2000, 3000, 4000 & 5000 cubic feet and the department at its discretion to select the best option keeping in view the need and value for money. Moreover, the bidders will be further required to quote unit rate @ of per cubic feet to rationalize the storage area as per need.</p> <p>As mentioned in the bidding document, these are just indicative units and would vary for actual assignment</p>

11	Area might be plus minus depending upon the availability of the warehouses, but we will try to match the total area of 211,000 sqft	Initially, Service Provider are expected to provide warehousing space of around 100,000 sq. ft. distributed proportionately in all areas. The payment will be made as per actual. For additional space requirement, Service Provider will be given a 2 week notice and the requirements would be extended in multiples of 20,000 sq. ft. in each request until maximum limit of 211,315 sq. ft. is reached.
12	Open area will also be chargeable.	Yes. The bidders can quote the same by making it part of their financial bid and counting to the total sum. The same will be considering part of marking/ranking as per rationale of Quality Cost based selection system.
13	Please confirm the value of the stock at each location for Insurance purpose and also confirm in transit insurance limit requirement.	As mentioned in the bidding document, this would be Rs. 2 billion (which would be divided proportionately for all warehouses) considering each and every employer's liability and workers' compensation insurance in respect of the experts and Sub-consultants in accordance with the relevant provisions of the applicable law, as well as, with respect to such Experts, any such life, health, accident, travel or other insurance as may be appropriate; and insurance against loss of or damage to (i) equipment purchased in whole or in part with funds provided under this Contract, (ii) the Consultant's property used in the performance of the Services, and (iii) any documents prepared by the Consultant in the performance of the Services.
14	As you require CVs for the staff we will depute/hire on this project, we would request you to eliminate/postpone this requirement till the execution of project as we will going to hire/depute the required resource once this project is awarded to TCS. However, CVs of the regional level management can be shared.	CVs of regional staff is required to be shared which are reflective of overall qualification of deputed team, based on which marks will be awarded.
15	Please confirm the payment process and payment terms	Bills will be paid as soon as possible after fulfilling the legal Govt

		procedures inline to the requirement of Accountant General Pakistan.
16	Divisions wise network list of BHUs/RHCs/DHQs etc. is required please.	Attached in the annexure A
17	Division and district wise complete health facilities list is required which needs to be served.	Attached in the annexure A
18	Tentative volumes for each location	This department of Health is doing this activity for the very first time, therefore no background data is available for tentative estimation. However, per unit cost (square feet & cubic feet) is sought to be utilized accordingly.
19	We have two transportation models to cater your transportation requirements, i.e., a) Fixed Cost + Variable Cost b) Per KM Cost – which will be capped with minimum chargeable KMs for each trip. Looking at the DGHS operational requirements, we suggest that Option “a” is more suitable	Per KM Cost in lump sum would be exercised however the bidders would be required to quote Fixed Cost + Variable Cost as well and the department/SMU at its discretion would select based on need and value for money. Moreover, risk coverage of 10% above or below would be exempted from price increase or decrease but if more than 10% increase or decrease the case will be dealt accordingly to increase in case of price increase in fuel proportionately and decrease in case of price decrease in fuel proportionately.
20	Fuel & Electricity tariff changes are occurring fortnightly basis, so the impact of variation need to be adjusted accordingly as per the formulae that will be presented in quote/contract.	Fuel is explained in above. The electricity charges will be paid as per actual.
21	Can we get Govt. permission to allow our vehicles for daytime entrance in cities?	This is beyond the scope of this project and the bidders would be required to deal this at their own level as per need.
22	Will the Technical evaluation form to be filled by TCS or DGHS?	DGHS
23	We suggest 6 month expected invoice amount as Mobilization advance.	There is no such provision of mobilization advance as per PC-1, however, could be considered and divided proportionally across the

		<p>period of 6 months.</p> <p>Final decision about this would be taken at the time of contract award.</p>
24	We suggest at least 03 months mobilization time after contract award for the site preparedness and deployment.	After award of contract a maximum time for facility management & operationalization would be 90 days.
25	In the below table should we mention total price for one month or annual? As if we add unit price for per sq.ft. it will give the total price for one month only.	For one month
26	List of the products (SKUs) to be stored under ambient temperature	Attached in Annex-B
27	List of the products (SKUs) to be stored under Temperature controlled temperature +25 to +30 degree	Attached in Annex-B
28	List of the products (SKUs) to be stored under Temperature controlled temperature +2 to +5 Degree	Attached in Annex-B
29	Tentative Volume for each site to secure the storage space.	This department of Health is doing this activity for the very first time, therefore no background data is available for tentative estimation. However, per unit cost (square feet & cubic feet) is sought to be utilized accordingly.
30	Average handling of volume per site	This department of Health is doing this activity for the very first time, therefore no background data is available for tentative estimation. However, per unit cost (square feet & cubic feet) is sought to be utilized accordingly.
31	Will Govt support in One time capex cost?	No
32	We are interested to operate this business from Islamabad followed by Peshawar, Mardan, and other cities. Will this work for you?	Expectation from the Service Provider is to set up the central warehouse in no other location than Peshawar and the remaining warehouse number is explained in Pre-bid meeting and available in RFP as well.
33	What are the Payment terms and conditions?	Bills will be paid as soon as possible after fulfilling the legal Govt procedures inline to the requirement of Accountant General Pakistan.
