

Weekly Epidemiological Bulletin Integrated Disease Surveillance and Response System

Khyber Pakhtunkhwa

Epidemiological Week – 50 (December 13, 2021 to December 19, 2021)

Public Health Coordinators Batch II training on short course on infectious diseases

Meeting of partners with IDSRS Team for strengthening IDSRS

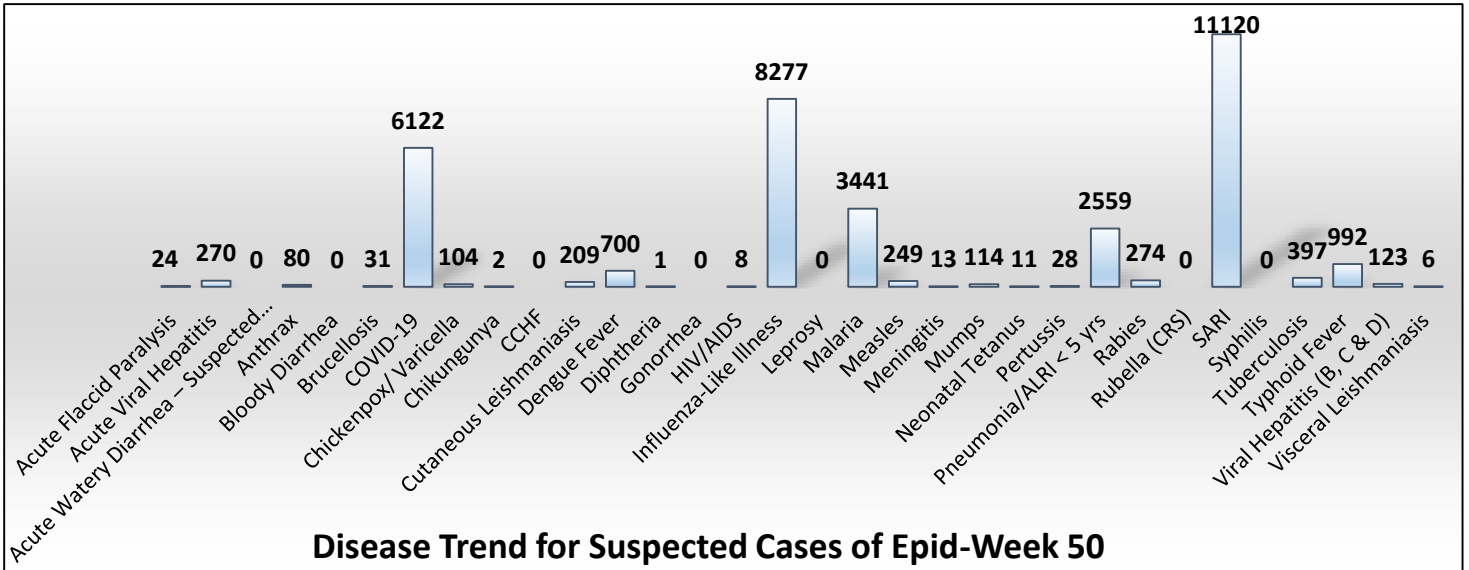

HIGHLIGHTS

- IDSRS weekly reports received from 1150 out of 1546 health facilities of Khyber Pakhtunkhwa.
- In epidemiological week # 50, total 21 dengue cases were reported from Khyber Pakhtunkhwa. Daily dengue cases are showing a downward trend this week.
- A team of UN PHPF along with WHO and Ahsar Foundation visited DGHS to meet with Director Public Health and Program Manager IDSRS and his team. The meeting was focused on further support provided for strengthening of IDSRS in Khyber Pakhtunkhwa.
- A meeting was held between IDSRS and Chemonics in DGHS in which support for strengthening of IDSRS was discussed
- Public Health Coordinators batch-II was trained on short course of infectious diseases with the support of Department of Health, KP and USAID's Integrated Health System.
- In response to media reports about increase number of Pneumonia/ALRI cases and deaths in various parts of Khyber Pakhtunkhwa, Director General Health Service tasked IDSRS team to investigate and submit a brief report. IDSRS team has until now contacted Public Health Coordinators of all districts of Khyber Pakhtunkhwa to investigate and submit a report. Visit to Hospitals of Peshawar by IDSRS surveillance teams is ongoing and it will be followed by a detailed report.
